ACTION MEMO FOR AMBASSADOR LUCY TAMLYN, DEMOCRATIC REPUBLIC OF THE CONGO

- FROM: S/GAC U.S. Global AIDS Coordinator, Ambassador Dr. John Nkengasong
- THROUGH: S/GAC-Hilary Wolf, Chair S/GAC- Ariel Groft, PEPFAR Program Manager

SUBJECT: Fiscal Years (FY) 2024 and 2025 PEPFAR Planned Allocation

Dear Ambassador Tamlyn,

To end HIV/AIDS as a global public health threat by 2030, it is critical that PEPFAR supported HIV-response investments and activities are aligned with the unique situation of the partner countries we are supporting. This will also require that together, we chart a successful course for operationalizing the PEPFAR Five-year Strategy that will help our partner countries achieve or exceed the 95/95/95 HIV treatment target by 2025, as well as provide a strong public health infrastructure that can be leveraged to tackle current and emerging disease threats.

In response to stakeholder input and to make the COP/ROP process more fit-forpurpose, there are many improvements to this year's process: a) transitioning from an annual planning process to 2-year operational planning to facilitate longer-term thinking. The shift to a 2-year cycle will begin in fiscal year 2024 (FY24) for COP and in fiscal year 2025 (FY25) for ROP; b) a redesigned COP/ROP Guidance Document that is a shorter, more strategic, and more useful resource to support country teams as they work with stakeholders to develop country and/or regional operating plans; c) Technical Considerations, formerly a section within the Guidance, has been moved to an annex document and have only been revised from COP/ROP22 Guidance where necessary; and d) Minimum Program Requirements have been reframed as Core Standards to better reflect PEPFAR's role as a respectful partner helping to enable the goals of national HIV efforts. The function and purpose of the COP/ROP process remains unchanged. We need to maintain an inclusive process, use data for decision making, maximize partnership and interagency collaboration, and pursue program and policy priorities efficiently for maximum impact. All COP/ROP changes are intended to preserve accountability, impact, and transparency, and to redesign or eliminate things no longer fit-for-purpose.

There is a lot of anticipation leading up to this year's COP and I have full confidence in our highly skilled team and in our ability to guide the process as our partner countries play a leadership role; with communities, civil society, faith-based organizations, and other partners continuing to assume a more active role as well. Convening with our partners to plan country operations is our most important collaborative act. You set the tone in this critical planning process, and I am calling on each of you to ensure that the PEPFAR family adheres to the new PEPFAR Code of Conduct. Our shared goal to end the HIV/AIDS epidemic in our respective PEPFAR partner countries should be the overarching motivation. As we proceed with the COP process, we should strive to uphold PEPFAR Guiding Principles: respect/humility, equity, accountability/transparency, impact, and sustained engagement.

We ask that teams carefully consider which discussants from the country are invited to join the co-planning meeting, ensuring that both the technical needs (health, finance) and political needs (foreign affairs, private sector) are well represented. Stakeholder engagement is essential for a productive and impactful planning process, and civil society engagement will continue to be an integral part of this planning process.

Consistent with the approach from years past, PEPFAR teams will be responsible for setting their own targets across PEPFAR program areas in consultation with stakeholders. PEPFAR targets are not PEPFAR's but flow directly from Democratic Republic of Congo's commitment to the U.N. Sustainable Development Goal (SDG) 3 target of ending the global AIDS epidemic as a public health threat by 2030 while also advancing interdependent SDGs.

We look forward to seeing you in Johannesburg at the co-planning meetings to jointly understand and address the barriers to reach 95/95/95 by 2025 through a lens of PEPFAR's 5x3 strategic direction, aligned with your country's national program. Adaptive case finding is essential to find and treat the remaining

UNCLASSIFIED

populations and achieve these goals. Please array your budget considering the program budget control for OVC non-DREAMS. For PrEP and AP3 (Accelerating Progress in Pediatrics and PMTCT), there are no formal controls in the system or in the tables below, but your OU is expected to program at least the amount that was programmed for COP22. Similarly, the tables below do not set a formal control for Community Led Monitoring (CLM), but OUs must continue to program appropriately for CLM. System gaps that inhibit achieving impact should be identified and addressed with a view to the systems improvements needed to sustain impact in the future.

The PEPFAR COP23 two-year notional budget for Democratic Republic of the Congo is **\$229,379,063, Year 1 is \$117,644,750 and Year 2 is \$111,734,313,** inclusive of all new funding accounts and applied pipeline and includes the following surveys: 1) General Population Survey (CDC) - \$10,000,000 in Year 1 and \$10,000,000 in Year 2; 2) SABERS Survey (DoD) - \$556,000 in Year 1. The \$5,000,000 listed for State/SGAC should be programmed to agencies during the COP based on interagency discussions guided by preliminary findings from the program and data quality assessment. The Year 2 notional amount is subject to change pending FY 2024 appropriations.

As in previous years, OUs may request limited changes to these controls working with their Chair/PPM and Management and Budget, who will work with S/GAC leadership. Details of the control change request parameters and process will be distributed prior to the co-planning meetings.

UNCLASSIFIED

Please note that within the next few days our S/GAC Chairs and PEPFAR Program Managers (PPMs), working closely with our headquarters support teams, will review this planning letter and details contained herein, with your wider PEPFAR country team.

Once again, thank you for your continued leadership and engagement during the COP/ROP23 process.

Sincerely,

John Nkengasong
