ACTION MEMO FOR AMBASSADOR NATALIE E. BROWN, UGANDA

FROM: S/GAC – U.S. Global AIDS Coordinator,
Ambassador Dr. John Nkengasong

THROUGH: S/GAC - Sara Klucking, Chair
S/GAC - Kristen Panico, PEPFAR Program Manager

SUBJECT: Fiscal Years (FY) 2024 and 2025 PEPFAR Planned Allocation

Dear Ambassador Brown,

To end HIV/AIDS as a global public health threat by 2030, it is critical that PEPFAR supported HIV-response investments and activities are aligned with the unique situation of the partner countries we are supporting. This will also require that together, we chart a successful course for operationalizing the PEPFAR Five-year Strategy that will help our partner countries achieve or exceed the 95/95/95 HIV treatment target by 2025, as well as provide a strong public health infrastructure that can be leveraged to tackle current and emerging disease threats.

In response to stakeholder input and to make the COP/ROP process more fit-for-purpose, there are many improvements to this year's process: a) transitioning from an annual planning process to 2-year operational planning to facilitate longer-term thinking. The shift to a 2-year cycle will begin in fiscal year 2024 (FY24) for COP and in fiscal year 2025 (FY25) for ROP; b) a redesigned COP/ROP Guidance Document that is a shorter, more strategic, and more useful resource to support country teams as they work with stakeholders to develop country and/or regional operating plans; c) Technical Considerations, formerly a section within the Guidance, has been moved to an annex document and have only been revised from COP/ROP22 Guidance where necessary; and d) Minimum Program Requirements have been

UNCLASSIFIED

reframed as Core Standards to better reflect PEPFAR's role as a respectful partner helping to enable the goals of national HIV efforts.

The function and purpose of the COP/ROP process remains unchanged. We need to maintain an inclusive process, use data for decision making, maximize partnership and interagency collaboration, and pursue program and policy priorities efficiently for maximum impact. All COP/ROP changes are intended to preserve accountability, impact, and transparency, and to redesign or eliminate things no longer fit-for-purpose.

There is a lot of anticipation leading up to this year's COP and I have full confidence in our highly skilled team and in our ability to guide the process as our partner countries play a leadership role; with communities, civil society, faith-based organizations, and other partners continuing to assume a more active role as well. Convening with our partners to plan country operations is our most important collaborative act. You set the tone in this critical planning process, and I am calling on each of you to ensure that the PEPFAR family adheres to the new PEPFAR Code of Conduct. Our shared goal to end the HIV/AIDS epidemic in our respective PEPFAR partner countries should be the overarching motivation. As we proceed with the COP process, we should strive to uphold PEPFAR Guiding Principles: respect/humility, equity, accountability/transparency, impact, and sustained engagement.

We ask that teams carefully consider which discussants from the country are invited to join the co-planning meeting, ensuring that both the technical needs (health, finance) and political needs (foreign affairs, private sector) are well represented. Stakeholder engagement is essential for a productive and impactful planning process, and civil society engagement will continue to be an integral part of this planning process.

Consistent with the approach from years past, PEPFAR teams will be responsible for setting their own targets across PEPFAR program areas in consultation with stakeholders. PEPFAR targets are not PEPFAR's but flow directly from Uganda's commitment to the U.N. Sustainable Development Goal (SDG) 3 target of ending the global AIDS epidemic as a public health threat by 2030 while also advancing interdependent SDGs.

In alignment with efforts by the U.S. government to support diversity, equity, inclusion, and accessibility as well as to advance equity for underserved

communities and prevent and combat discrimination or exploitation based on race, religion, age, gender identity, or sexual orientation, PEPFAR will work to ensure that these principles are upheld, promoted, and advanced in all PEPFAR programs and in how we conduct business.

Uganda's progress towards 95/95/95 has continued to advance. At the co-planning meeting we look forward to hearing your plans to reach and maintain 95/95/95 by 2025, and address adaptive case finding, particularly for young people, which is essential to achieving these goals. Given progress towards 95/95/95, some of the program budget controls have been relaxed, while DREAMS, cervical cancer and PrEP controls have been maintained. For PrEP and AP3 (Accelerating Progress in Pediatrics and PMTCT), there are not formal controls in the system or in the tables below, but your OU is expected to program at least the amount that was programmed for COP22. Similarly, the tables below do not set a formal control for Community Led Monitoring (CLM), but OUs must continue to program appropriately for CLM. System gaps that inhibit achieving impact should be identified and addressed with a view to the systems improvements needed to sustain impact in the future. Although many program budget controls have been lifted, we expect that population coverage, outcomes and impact will continue to increase by further finding program and budget efficiencies and integrating programs in partner country services and systems.

In COP23, please continue to assess and respond to gaps among pediatric populations, key populations and adolescent girls and young women. DREAMS programming is a critical program for AGYW, and program standards should align with COP guidance. Coverage and impact from prevention services i.e., VMMC, and PrEP must be maintained and scaled as needed.

The PEPFAR COP23 two-year notional budget for Uganda is **\$750,370,500, Year 1 is \$385,190,000 and Year 2 is \$365,180,500**, inclusive of all new funding accounts and applied pipeline and includes the following surveys: 1) Country-Led PHIA (General Population Survey) (CDC) - \$5,000,000 in Year 1 and \$5,000,000 in Year 2. The Year 2 notional amount is subject to change pending FY 2024 appropriations.

General Population Survey	\$5,000,000	-	\$5,000,000

As in previous years, OUs may request limited changes to these controls working with their Chair/PPM and Management and Budget, who will work with S/GAC

leadership. Details of the control change request parameters and process will be distributed prior to the co-planning meetings.

Please note that within the next few days our S/GAC Chairs and PEPFAR Program Managers (PPMs), working closely with our headquarters support teams, will review this planning letter and details contained herein, with your wider PEPFAR country team.

Once again, thank you for your continued leadership and engagement during the COP/ROP23 process.

Sincerely,

John Nkengasong

CC: S/GAC - Mamadi Yilla, Acting Principal Deputy Coordinator
S/GAC - Irum Zaidi, Deputy Coordinator
S/GAC - Sara Klucking, Chair
S/GAC - Kristen Panico, PEPFAR Program Manager
