

## 2017 The HIV/AIDS Sustainability Index and Dashboard 3.0 Summary: Ukraine

The HIV/AIDS Sustainability Index and Dashboard (SID) is a tool completed every two years by PEPFAR teams and partner stakeholders to sharpen the understanding of each country's sustainability landscape and to assist PEPFAR and others in making informed HIV/AIDS investment decisions. Based on responses to 89 questions, the SID assesses the current state of sustainability of national HIV/AIDS responses across 15 critical elements. Scores for these elements are displayed on a color-coded dashboard, together with other contextual charts and information. As the SID is completed over time, it will allow stakeholders to track progress and gaps across these key components of sustainability.

<b>Dark Green Score (8.50-10 points)</b> (sustainable and requires no additional investment at this time)
<b>Light Green Score (7.00-8.49 points)</b> (approaching sustainability and requires little or no investment)
<b>Yellow Score (3.50-6.99 points)</b> (emerging sustainability and needs some investment)
<b>Red Score (&lt;3.50 points)</b> (unsustainable and requires significant investment)

### Overview:

As of 2016, the Ukraine State Statistics Service estimates total Ukraine's population as 42.6 million, excluding Crimea and Sevastopol. Approximately 2.3 million people live in Russian-occupied Crimea and another 3 million in separatist/Russian-occupied portions of the eastern Luhansk and Donetsk regions; over 1 million people from these regions are internally displaced within Ukraine. As of 01/01/2017 by the MoH estimates there were 238,000 PLHIV in Ukraine, all ages, with the majority of diagnosed cases among men (57.5%). Approximately 23% of estimated PLHIV live in Crimea (5%) and Luhansk/Donetsk (18%). Ukraine's HIV epidemic remains geographically concentrated with a belt of regions in the South and East disproportionately affected; seven regions, six of which are located in the South and East, account for ~50% of estimated cases but only 31% of the population. The epidemic is concentrated in KP with a prevalence of 21.9% among PWID, 7.0% among female sex workers (FSW), and 8.5% among MSM according to the 2015 Integrated Bio-Behavioral Survey (IBBS).

Results of the SID3.0 analysis identified three main areas of strength – planning and coordination, policies and governance, and public access to information -- all under the Governance, Leadership, and Accountability domain. The MoH has endorsed the global 90-90-90 strategy and the Fast Track Initiative based on the WHO Test-&Start approach. The final draft of the new comprehensive HIV clinical guideline was developed during several rounds of wide multi-sectoral consultations, with full participation of national stakeholders, including key population representatives. The MoH led by the Center for Public Health developed the Strategy for Sustainability of the national HIV/AIDS and TB response by 2020 with Action plan with full stakeholder participation and an active Country Coordinating Mechanism in support of it. The Strategy was approved by the Cabinet of Ministers of Ukraine in March 2017. The national HIV response also faces key vulnerabilities. CSOs currently provide most prevention, care, and support services, while also supporting strategic information, health management information systems, research, procurement, and advocacy. However, because CSOs are dependent on external funding, their long-term existence is threatened by a reduction of GFATM assistance after 2020. Also, given the war and economic instability, the MoH now procures about 80% of the required ARVs and test kits, and it has not established a logistics management information system (LMIS) for HIV commodities. At the same time the health sector, including public health system, undergoes radical reforms and a new government agency for health state procurement, independent from the MoH, has to be established by 2019. Finally, the SID identifies quality management as an area of vulnerability by noting that the government lacks a budget line item for quality management, a data collection and analysis system to track performance improvement, and provision of

oversight that ensures continuous quality improvement in HIV care and services. Private sector engagement is another weak area in the country's response to HIV/AIDS, with government sector being the predominant player in the overall health care services provision and private providers (less than 2 % of all the HCF) currently not being able to provide HIV services. National stakeholders are working together to mitigate the impact of these vulnerabilities through planned activities to introduce changes into the health and HIV-related legislation and through recently initiated development of a new National HIV/AIDS State Program for 2019-2023.

**SID Process:** The Sustainability Index and Dashboard (SID 3.0) analysis of Ukraine's national HIV response was undertaken in partnership with UNAIDS Country Office in Ukraine and jointly with key national stakeholders in three stages: 1) on October 10, 2017 a working group led by the UNAIDS and PEPFAR, consisting of the MoH/ Center for Public Health, two GFATM PRs of the current HIV grant to Ukraine: Alliance for Public Health and PLHIV Network and UN agencies had preliminary meeting, where SID3.0 was pre-populated; 2) on October 23, 2017 key populations group representatives were invited for consultation about SID process and preliminary results of SID3.0 for Ukraine; 3) and on October 25, 2017 the national stakeholder consultation took place in Kyiv to validate the completed SID 3.0 tool for Ukraine, electronically shared with all the participants and their organizations prior to the meeting. The final SID 3.0 report for Ukraine was a result of consensus reached at that meeting.

### **Sustainability Strengths:**

- **Planning and Coordination (Score: 9.3):** An area of significant multi-stakeholder effort and donor investment in past years, Ukraine has made significant strides in its capacity to develop, plan, budget and coordinate HIV/AIDS response activities with funding from different sources under costed and targeted national and regional AIDS programs. National HIV and TB Coordination Council at the Cabinet of Ministers of Ukraine (performing the function of CCM for the GFATM grants) served a truly multi-stakeholder mechanism of programmatic oversight of both GoU- and donor-funded programs and a discussion platform to improve the sustainability and effectiveness of the national AIDS response and inter-sectoral linkage with TB. Similar processes are observed at the sub-national level in most regions in the form of Oblast Coordination Councils actively supported by CSOs.
- **Policies and Governance (Score: 8.1):** The MoH has endorsed the global 90-90-90 strategy and the Fast Track Initiative based on the WHO Test-&Start approach. The final draft of the new comprehensive HIV clinical guideline was developed during several rounds of wide multi-sectoral consultations, with full participation of national stakeholders, including key population representatives. The MoH led by the Center for Public Health and facilitated by UNAIDS and PEPFAR program, developed the Strategy for Sustainability of the national HIV/AIDS and TB response by 2020. This Strategy based on the Fast Track 90-90-90 targets and Test-&Start approach, was approved by the Cabinet of Ministers of Ukraine in March 2017. In the context of wide health sector reforms, a National Concept of the Development of a New Public Health System, that includes HIV policy, programming and service provision, was developed by the MoH with support from PEPFAR, UNAIDS, World Bank and EU and approved by the Cabinet of Ministers in November 2016.
- **Public Access to Information (Score: 8.0):** Ukraine has made major strides in its capacity to provide epidemiologic, programmatic, and financial information related to the national HIV response open to public scrutiny. The MoH Center for Public Health website has significantly improved over the last two years with a National Portal of Strategic HIV/AIDS Information developed with PEPFAR support available to program managers, CSOs, and service providers.

### **Sustainability Vulnerabilities:**

- **Commodity Security and Supply Chain (Score: 3.4):** While the score in this area has improved from the previous SID (2.5 in 2015) it indicates there is still systemic vulnerability in supply chain management. The availability of life-saving antiretroviral medications and other HIV commodities are essential for epidemic control and a sustainable national response. Although there are no indications that patients who are currently on treatment

have ceased treatment because of lack of commodities, in some regions health providers had been reluctant to add new patients because of concerns of potential stock-outs. PEPFAR is helping to develop an electronic HIV Management Information System and an LMIS module will be developed for it. Although most government-procured drugs are generics, a few in commonly prescribed regimens are branded. This issue is addressed through the development of a new treatment protocol within the new comprehensive HIV Guideline under public discussion now, expected to be officially approved by the GoU by the end of 2017.

- **Quality Management (Score: 3.2):** The score in this area has improved from the previous SID (2.2 in 2015). Recently, a Quality Improvement Curriculum for post-graduate education was adopted, and a set of Quality Improvement recommendations were approved by MoH/CPH as organizational standards for public health management. However, the government lacks a budget line item for quality management, a data collection and analysis system to track performance improvement, and provision of oversight that ensures continuous quality improvement in HIV care and services. PEPFAR will continue to address these shortcomings by fostering innovations throughout the clinical cascade, including improving network-based and PITC HIV testing services, and linkage and retention, rolling out a national HIV Management Information System that collects data on HIV program indicators and allows analysis at different levels of the system.
- **Private Sector Engagement (Score: 3.0):** Although legislation does not bar national and sub-national governments from procuring private-sector medical services, currently private sector facilities cannot provide any HIV basic care, such as HIV testing or ART prescription or dispensing. Non-for-profit clinics are nearly non-existent in Ukraine. PEPFAR is tackling this deficiency by providing TA to introduce changes into the health and HIV legislation and regulatory acts, on the one hand. Additionally, there are plans to provide regional governments, newly formed regional public health centers and local health care facilities with technical assistance to procure services from NGOs and emerging non-for-profit primary health care clinics. In addition, some PEPFAR-supported NGOs received TA to develop business plans and several of them have applied for low-interest social entrepreneurship loans from commercial banks.

**Contact:** For questions or further information about PEPFAR's efforts to support sustainability of the HIV response in Ukraine, please contact Paola Pavlenko at [Ppavlenko@usaid.gov](mailto:Ppavlenko@usaid.gov).

## CONTEXTUAL DATA

## Domain A. Governance, Leadership, and Accountability

**What Success Looks Like:** Host government upholds a transparent and accountable resolve to be responsible to its citizens and international stakeholders for achieving planned HIV/AIDS results, is a good steward of HIV/AIDS finances, widely disseminates program progress and results, provides accurate information and education on HIV/AIDS, and supports mechanisms for eliciting feedback. Relevant government entities take actions to create an enabling policy and legal environment, ensure good stewardship of HIV/AIDS resources, create space for and promote participation of the private sector, and provide technical and political leadership to coordinate an effective national HIV/AIDS response.

**1.1 Planning and Coordination:** Host country develops, implements, and oversees a costed multiyear national strategy and serves as the preeminent architect and convener of a coordinated HIV/AIDS response in the country across all levels of government and key stakeholders, civil society and the private sector.

			Data Source	Notes/Comments
<p><b>1.1 Content of National Strategy:</b> Does the country have a multi-year, costed national strategy to respond to HIV?</p>	<p><input type="radio"/> A. There is no national strategy for HIV/AIDS</p> <p><input checked="" type="radio"/> B. There is a multiyear national strategy. **2.6 Structural Obstacles:** Does the country have laws and/or policies that present barriers to delivery of HIV prevention, testing and treatment services or the accessibility of these services?

**For each question, select the most appropriate option:**

Are transgender people criminalized and/or prosecuted in the country?

- Both criminalized and prosecuted
- Criminalized
- Prosecuted
- Neither criminalized nor prosecuted

Is cross-dressing criminalized in the country?

- Yes
- Yes, only in parts of the country
- Yes, only under certain circumstances
- No

Is sex work criminalized in your country?

- Selling and buying sexual services is criminalized
- Selling sexual services is criminalized
- Buying sexual services is criminalized
- Partial criminalization of sex work
- Other punitive regulation of sex work
- Sex work is not subject to punitive regulations or is not criminalized.
- Issue is determined/differs at subnational level

Does the country have laws criminalizing same-sex sexual acts?

- Yes, death penalty
- Yes, imprisonment (14 years - life)
- Yes, imprisonment (up to 14 years)
- No penalty specified
- No specific legislation
- Laws penalizing same-sex sexual acts have been decriminalized or never existed

Does the country maintain the death penalty in law for people convicted of drug-related offenses?

- Yes, with high application (sentencing of people convicted of drug offenses to death and/or carrying out executions are a routine and mainstreamed part of the criminal justice system)
- Yes, with low application (executions for drug offenses may have been carried out in recent years, but in practice such penalties are relatively rare)
- Yes, with symbolic application (the death penalty for drug offenses is included in legislation, but executions are not carried out)
- No

Does the country have laws criminalizing the transmission of, non-disclosure of, or exposure to HIV transmission?

- Yes
- No, but prosecutions exist based on general criminal laws
- No

Does the country have policies restricting the entry, stay, and residence of people living with HIV (PLHIV)?

- Yes
- No

	<p>Does the country have other punitive laws affecting lesbian, gay, bisexual, transgender, and intersex (LGBTI) people?</p> <p><input type="checkbox"/> Yes, promotion ("propaganda") laws</p> <p><input type="checkbox"/> Yes, morality laws or religious norms that limit LGBTI freedom of expression and association</p> <p><input checked="" type="checkbox"/> No</p>

<p><b>4.4 Private Sector Capability and Interest:</b> Does the private sector possess the capability to support HIV/AIDS services, and do private sector stakeholders demonstrate interest in supporting the national HIV/AIDS response?</p>	<p><input type="radio"/> A. The host country government does not leverage the skill sets of the private sector for the national HIV/AIDS response.</p> <p><input checked="" type="radio"/> B. The private sector does not express interest in or actively seek out opportunities to support the national HIV/AIDS response.</p> <p><input type="radio"/> C. The private sector has expertise and has expressed interest in or actively seeks out (check all that apply):</p> <p><input type="checkbox"/> Market opportunities that align with and support the national HIV/AIDS response</p> <p><input type="checkbox"/> Opportunities to contribute financial and/or non-financial resources to the national response (including business skills, market research, logistics, communication, research and development, product design, brand awareness, and innovation)</p>	<p>4.4 Score: 0.00</p>		
<p><b>Private Sector Engagement Score:</b></p>		<p>3.01</p>		

5. Public Access to Information: Host government widely disseminates timely and reliable information on the implementation of HIV/AIDS policies and programs, including goals, progress and challenges towards achieving HIV/AIDS targets, as well as fiscal information (public revenues, budgets, expenditures, large contract awards , etc.) related to HIV/AIDS. Program and audit reports are published publically. Efforts are made to ensure public has access to data through print distribution, websites, radio or other methods of disseminating information.				
			Source of Data	Notes/Comments
<p><b>5.1 Surveillance and Survey Transparency:</b> Does the host country government ensure that HIV/AIDS surveillance and survey data and analyses are made available to stakeholders and general public in a timely and useful way?</p>	<p>A. The host country government does not make HIV/AIDS surveillance and survey data available to stakeholders and the general public, or they are made available more than one year after the date of collection.</p> <p><input type="radio"/></p> <p>B. The host country government makes HIV/AIDS surveillance and survey data available to stakeholders and the general public within 6-12 months.</p> <p><input checked="" type="radio"/></p> <p>C. The host country government makes HIV/AIDS surveillance and survey data available to stakeholders and the general public within six months.</p> <p><input type="radio"/></p>	<p>5.1 Score: 1.00</p>	<p>PHC Bulletins, IBBS Reports, other data docs at the site of NPHC and M&amp;E Resource Center:  <a href="http://phc.org.ua/pages/diseases/hiv_aids/information">http://phc.org.ua/pages/diseases/hiv_aids/information</a>; <a href="http://phc.org.ua/resource-center">http://phc.org.ua/resource-center</a>  <a href="http://hiv.phc.org.ua/nationalportal/GAM-reporting">http://hiv.phc.org.ua/nationalportal/GAM-reporting</a></p>	
<p><b>5.2 Expenditure Transparency:</b> Does the host country government make annual HIV/AIDS expenditure data available to stakeholders and the public in a timely and useful way?</p>	<p>A. The host country government does not track HIV/AIDS expenditures.</p> <p><input type="radio"/></p> <p>B. The host country government does not make HIV/AIDS expenditure data available to stakeholders and the general public, or they are made available more than one year after the date of expenditures.</p> <p><input type="radio"/></p> <p>C. The host country government makes HIV/AIDS expenditure data available to stakeholders and the general public within 6-12 months after date of expenditures.</p> <p><input checked="" type="radio"/></p> <p>D. <p><b>5.5 Institutionalized Education System:</b>  Is there a government agency that is explicitly responsible for providing scientifically accurate education to the public about HIV/AIDS?</p>	<p><input type="radio"/> A. There is no government institution that is responsible for this function and no other groups provide education.</p> <p><input type="radio"/> B. There is no government institution that is responsible for this function but at least one of the following provides education:</p> <p><input type="checkbox"/> Civil society</p> <p><input type="checkbox"/> Media</p> <p><input type="checkbox"/> Private sector</p> <p><input checked="" type="radio"/> C. There is a government institution that is responsible for, and is providing, scientifically accurate information on HIV/AIDS.</p>	<p>5.5 Score: 2.00</p>	<p><a href="http://phc.org.ua/events/category/training">http://phc.org.ua/events/category/training</a>  <a href="http://phc.org.ua/pages/for_patients">http://phc.org.ua/pages/for_patients</a></p>	
<p><b>Public Access to Information Score:</b></p>		<p><b>8.00</b></p>		

THIS CONCLUDES THE SET OF QUESTIONS ON DOMAIN A

## Domain B. National Health System and Service Delivery

What Success Looks Like: Host country institutions (inclusive of government, NGOs, civil society, and the private sector), the domestic workforce, and local health systems constitute the primary vehicles through which HIV/AIDS programs and services are managed and delivered. Optimally, national, sub-national and local governments have achieved high and appropriate coverage of a range of quality, life-saving prevention, treatment, and care services and interventions. There is a high demand for HIV/AIDS services, which are accessible and affordable to poor and vulnerable populations at risk of infection (i.e. key populations, discordant couples, exposed infants), are infected and/or are affected by the HIV/AIDS epidemic.

			Data Source	Notes/Comments
<p>6.1 Responsiveness of facility-based services to demand for HIV services: Do public facilities respond to and generate demand for HIV services to meet local needs? (Check all that apply.)</p>	<p><input type="checkbox"/> Public facilities are able to tailor services to accommodate demand (e.g., modify or add hours/days of operations; add/second additional staff during periods of high patient influx; customize scope of HIV services offered; adapt organization/model of service deliver to patient flow)</p> <p><input checked="" type="checkbox"/> Public facilities are able to situate services in proximity to high-HIV burden locations or populations (e.g., mobile clinics)</p> <p><input checked="" type="checkbox"/> There is evidence that public facilities in high burden areas and/or serving high-burden populations generate demand for HIV services</p>	<p>6.1 Score: 0.74</p>	<p>IBBS 2015  <a href="http://aph.org.ua/wp-content/uploads/2017/06/Monitoring-povedinky-ta-poshyrennya-VIL-infektsiyi-sered-RKS_22.06.2017_Natsyonalnaya-chast.pdf">http://aph.org.ua/wp-content/uploads/2017/06/Monitoring-povedinky-ta-poshyrennya-VIL-infektsiyi-sered-RKS_22.06.2017_Natsyonalnaya-chast.pdf</a>  <a href="http://aph.org.ua/wp-content/uploads/2015/09/monsin.pdf">http://aph.org.ua/wp-content/uploads/2015/09/monsin.pdf</a>  <a href="http://aph.org.ua/wp-content/uploads/2017/06/Analitichnuy_zvit_Nacionalna-chastyna_28.06.2017_com.pdf">http://aph.org.ua/wp-content/uploads/2017/06/Analitichnuy_zvit_Nacionalna-chastyna_28.06.2017_com.pdf</a></p>	
<p>6.2 Responsiveness of community-based HIV/AIDS services: Has the host country standardized the design and implementation of community-based HIV services? (Check all that apply.)</p>	<p>The host country has standardized the following design and implementation components of community-based HIV/AIDS services through (check all that apply):</p> <p><input checked="" type="checkbox"/> Formalized mechanisms of participation by communities, high-burden populations and/or civil society engagement in delivery or oversight of services</p> <p><input type="checkbox"/> National guidelines detailing how to operationalize HIV/AIDS services in communities</p> <p><input checked="" type="checkbox"/> Providing official recognition to skilled human resources (e.g. community health workers) working and delivering HIV services in communities</p> <p><input checked="" type="checkbox"/> Providing financial support for community-based services</p> <p><input type="checkbox"/> Providing supply chain support for community-based services</p> <p><input type="checkbox"/> Supporting linkages between facility- and community-based services through formalized bidirectional referral services (e.g., use of national reporting systems to refer and monitor referrals for completeness)</p>	<p>6.2 Score: 0.56</p>	<p>IBBS 2015  <a href="http://aph.org.ua/wp-content/uploads/2017/06/Monitoring-povedinky-ta-poshyrennya-VIL-infektsiyi-sered-RKS_22.06.2017_Natsyonalnaya-chast.pdf">http://aph.org.ua/wp-content/uploads/2017/06/Monitoring-povedinky-ta-poshyrennya-VIL-infektsiyi-sered-RKS_22.06.2017_Natsyonalnaya-chast.pdf</a>  <a href="http://aph.org.ua/wp-content/uploads/2015/09/monsin.pdf">http://aph.org.ua/wp-content/uploads/2015/09/monsin.pdf</a>  <a href="http://aph.org.ua/wp-content/uploads/2017/06/Analitichnuy_zvit_Nacionalna-chastyna_28.06.2017_com.pdf">http://aph.org.ua/wp-content/uploads/2017/06/Analitichnuy_zvit_Nacionalna-chastyna_28.06.2017_com.pdf</a>                      GF Grant performance:  <a href="https://www.theglobalfund.org/en/portfolio/country/grant/?k=83c43d32-49ef-4ed0-bcd9-09dc57b8c2cf&amp;grant=UKR-C-AUA">https://www.theglobalfund.org/en/portfolio/country/grant/?k=83c43d32-49ef-4ed0-bcd9-09dc57b8c2cf&amp;grant=UKR-C-AUA</a>  <a href="https://www.theglobalfund.org/en/portfolio/country/grant/?k=912991d0-73e0-4a25-a810-70461fce86d7&amp;grant=UKR-C-AUN">https://www.theglobalfund.org/en/portfolio/country/grant/?k=912991d0-73e0-4a25-a810-70461fce86d7&amp;grant=UKR-C-AUN</a>  <a href="https://www.theglobalfund.org/en/portfolio/country/grant/?k=1306e54b-170e-438f-8181-c634acb439fc&amp;grant=UKR-C-UCDC">https://www.theglobalfund.org/en/portfolio/country/grant/?k=1306e54b-170e-438f-8181-c634acb439fc&amp;grant=UKR-C-UCDC</a>  <a href="https://www.theglobalfund.org/en/portfolio/country/grant/?k=a4dae114-5406-4f4e-bbc7-32a136f5103d&amp;grant=UKR-C-UNICEF">https://www.theglobalfund.org/en/portfolio/country/grant/?k=a4dae114-5406-4f4e-bbc7-32a136f5103d&amp;grant=UKR-C-UNICEF</a></p>	<p>National and Regional/ Subnational HIV and TB Coordination Councils' ToR with separate constituencies for local NGOs and PLHIV and TB patients (CabMin Resolution № 712 of September 18, 2013); As noted by the NGO representatives at the Dec 15-2015 National Stakeholders meeting on HIV response sustainability, the local governments in Poltava, Cherkasy and Sumy regions provided small grants to local NGOs for HIV-related social services in 2015 and planned to continue in 2016</p>
<p>6.3 Domestic Financing of Service Delivery: To what extent do host country institutions (public, private, or voluntary sector) finance the delivery of HIV/AIDS services (i.e. excluding any external financial assistance from donors)?  (if exact or approximate percentage known, please note in Comments column)</p>	<p><input type="radio"/> A. <p><b>7.3 HRH transition:</b> What is the status of transitioning PEPFAR and/or other donor supported HIV/AIDS health worker salaries to local financing/compensation?</p> <p>Note in comments column which donors have transition plans in place.</p>	<p><input checked="" type="radio"/> A. There is no inventory or plan for transition of donor-supported health workers</p> <p><input type="radio"/> B. There is an inventory of donor-supported health workers, but no official plan to transition these staff to local support</p> <p><input type="radio"/> C. There is an inventory and plan for transition of donor-supported workers, but it has not yet been implemented</p> <p><input type="radio"/> D. There is an inventory and plan for donor-supported workers to be transitioned, and staff are being transitioned according to this plan</p> <p><input type="radio"/> E. No plan is necessary because all HIV/AIDS health worker salaries are already locally financed/compensated</p>	<p>7.3 Score: 0.00</p>		

<p><b>7.4 Domestic funding for HRH:</b> What proportion of health worker (doctors, nurses, midwives, and CHW) salaries are supported with domestic public or private resources (i.e. excluding donor resources)?</p> <p>(if exact or approximate percentage known, please note in Comments column)</p>	<p><input type="radio"/> A. Host country institutions provide no (0%) health worker salaries</p> <p><input type="radio"/> B. Host country institutions provide minimal (approx. 1-9%) health worker salaries</p> <p><input type="radio"/> C. Host country institutions provide some (approx. 10-49%) health worker salaries</p> <p><input type="radio"/> D. Host country institutions provide most (approx. 50-89%) health worker salaries</p> <p><input checked="" type="radio"/> E. Host country institutions provide all or almost all (approx. 90%+) health worker salaries</p>	<p>7.4 Score: 3.33</p>	<p><a href="http://www.euro.who.int/__data/assets/pdf_file/0018/280701/UkraineHiT.pdf">http://www.euro.who.int/__data/assets/pdf_file/0018/280701/UkraineHiT.pdf</a> GAM Reporting (Indicator #6.1) GF Policies</p>	
<p><b>7.5 Pre-service:</b> Do current pre-service education curricula for any health workers providing HIV/AIDS services include HIV content that has been updated in last three years?</p> <p>Note: List applicable cadres in the comments column.</p>	<p><input checked="" type="radio"/> A. Pre-service education institutions do not have HIV content, or HIV content used by pre-service education institutions is out of date (not updated within 3 years)</p> <p><input type="radio"/> B. Pre-service institutions have updated HIV/AIDS content within the last three years (check all that apply):</p> <p><input type="checkbox"/> Updated content reflects national standards of practice for cadres offering HIV/AIDS-related services</p> <p><input type="checkbox"/> Institutions maintain process for continuously updating content, including HIV/AIDS content</p> <p><input type="checkbox"/> Updated curricula contain training related to stigma &amp; discrimination of PLHIV</p> <p><input type="checkbox"/> Institutions track student employment after graduation to inform planning</p>	<p>7.5 Score: 0.00</p>		
<p><b>7.6 In-service Training:</b> To what extent does the host country government (through public, private, and/or voluntary sectors) plan and implement HIV/AIDS in-service training necessary to equip health workers for sustained epidemic control?</p> <p>(if exact or approximate percentage known, please note in Comments column)</p>	<p>Check all that apply among A, B, C, D:</p> <p><input checked="" type="checkbox"/> A. The host country government provides the following support for in-service training in the country (check ONE):</p> <p><input type="checkbox"/> Host country government implements no (0%) HIV/AIDS related in-service training</p> <p><input type="checkbox"/> Host country government implements minimal (approx. 1-9%) HIV/AIDS related in-service training</p> <p><input checked="" type="checkbox"/> Host country government implements some (approx. 10-49%) HIV/AIDS in-service training</p> <p><input type="checkbox"/> Host country government implements most (approx. 50-89%) HIV/AIDS in-service training</p> <p><input type="checkbox"/> Host country government implements all or almost all (approx. 90%+) HIV/AIDS in-service training</p> <p><input checked="" type="checkbox"/> B. The host country government has a national plan for institutionalizing (establishing capacity within local institutions to deliver) donor-supported in-service training in HIV/AIDS</p> <p><input checked="" type="checkbox"/> C. The host country government requires continuing professional development, a form of in-service training, for re-licensure for key clinicians</p> <p><input type="checkbox"/> D. The host country government maintains a database to track training for HIV/AIDS, and allocates training based on need (e.g. focusing on high burden areas)</p>	<p>7.6 Score: 0.69</p>	<p>For questions A, C the sources are as follows: <a href="http://www.hivreforminaction.org/eng/wp-content/uploads/2017/01/HRH_STRATEGY__EN_fin_web.pdf">http://www.hivreforminaction.org/eng/wp-content/uploads/2017/01/HRH_STRATEGY__EN_fin_web.pdf</a> <a href="http://www.euro.who.int/__data/assets/pdf_file/0018/280701/UkraineHiT.pdf">http://www.euro.who.int/__data/assets/pdf_file/0018/280701/UkraineHiT.pdf</a> For questions B, D the source might be provided by Ukraine MoH PHC</p>	<p>For question A, While some "thematic improvement courses" might be offered, a substation share of HIV/AIDS in-service training is offered through donor funding. We selected "some training" option (rather than "most"), and the actual estimated % might be closer to 49%. For question D, the country is working towards establishing such a database, it is not fully in place yet.</p>

<p><b>7.7 HR Data Collection and Use:</b> Does the country systematically collect and use health workforce data, such as through a Human Resource Information Systems (HRIS), for HIV/AIDS services and/or health workforce planning and management?</p>	<p><input type="radio"/> A. There is no HRIS in country and data on the health workforce is not collected systematically for planning and management</p> <p><input type="radio"/> B. There is no HRIS in country, but some data is collected for planning and management</p> <p><input type="checkbox"/> Registration and re-licensure data for key professionals is collected and used for planning and management</p> <p><input type="checkbox"/> MOH health worker employee data (number, cadre, and location of employment) is collected and used</p> <p><input type="checkbox"/> Routine assessments are conducted regarding health worker staffing at health facility and/or community sites</p> <p><input checked="" type="radio"/> C. There is an HRIS (an interoperable system that captures at least regulatory and deployment data on health workers) in country:</p> <p><input checked="" type="checkbox"/> The HRIS is primarily financed and managed by host country institutions</p> <p><input type="checkbox"/> There is a national strategy or approach to interoperability for HRIS</p> <p><input checked="" type="checkbox"/> The government produces HR data from the system at least annually</p> <p><input type="checkbox"/> Host country institutions use HR data from the system for planning and management (e.g. health worker deployment)</p>	<p>7.7 Score: 0.83</p>	<p><a href="http://www.moz.gov.ua/ua/portal/pre_20160115_e.html">http://www.moz.gov.ua/ua/portal/pre_20160115_e.html</a></p>	<p>"Ukrmedreest" could be considered as HRIS, although there are numerous issues to be emphasized here: 1) the enterprise that manages Ukrmedreestr is in the process of liquidation; 2) Ukrmedreestr data quality is very low due to lack of verification, as well as duplications and other errors; 3) Ukrmedreestr data was collected on quarterly basis and the database is not interoperable, as data are often submitted on flash drives etc.; 4) HIV-related indicators are poorly covered in Ukrmedreestr. However, there is ongoing work to establish a functional and high-quality HRIS for HIV/AIDS services through eHealth platform. It is estimated the the new HRIS will become operational by mid-2018.</p>
<p><b>Human Resources for Health Score</b></p>		<p><b>6.25</b></p>		

8. Commodity Security and Supply Chain: The National HIV/AIDS response ensures a secure, reliable and adequate supply and distribution of quality products, including drugs, lab and medical supplies, health items, and equipment required for effective and efficient HIV/AIDS prevention, diagnosis and treatment. Host country efficiently manages product selection, forecasting and supply planning, procurement, warehousing and inventory management, transportation, dispensing and waste management reducing costs while maintaining quality.				Data Source	Notes/Comments
<b>8.1 ARV Domestic Financing:</b> What is the estimated percentage of ARV procurement funded by domestic sources? (Domestic sources includes public sector and private sector but excludes donor and out-of-pocket funds)  (if exact or approximate percentage known, please note in Comments column)	<input type="radio"/> A. This information is not known. <input type="radio"/> B. No (0%) funding from domestic sources <input type="radio"/> C. Minimal (approx. 1-9%) funding from domestic sources <input type="radio"/> D. <p><b>8.7 Assessment:</b> Was an overall score of above 80% achieved on the National Supply Chain Assessment or top quartile for an equivalent assessment conducted within the last three years?  (if exact or approximate percentage known, please note in Comments column)</p>	<p><input checked="" type="radio"/> A. A comprehensive assessment has not been done within the last three years.</p> <p><input type="radio"/> B. A comprehensive assessment has been done within the last three years but the score was lower than 80% (for NSCA) or in the bottom three quartiles for the global average of other equivalent assessments</p> <p><input type="radio"/> C. A comprehensive assessment has been done within the last three years and the score was higher than 80% (for NSCA) or in the top quartile for the assessment</p>	<p>8.7 Score: 0.00</p>		
<p><b>Commodity Security and Supply Chain Score:</b></p>		<p><b>3.43</b></p>		

9. Quality Management: Host country has institutionalized quality management systems, plans, workforce capacities and other key inputs to ensure that modern quality improvement methodologies are applied to managing and providing HIV/AIDS services			Data Source	Notes/Comments
<p><b>9.1 Existence of a Quality Management (QM) System:</b> Does the host country government support appropriate QM structures to support continuous quality improvement (QI) at national, sub-national and site levels?</p>	<p><input type="radio"/> A. The host country government does not have structures or resources to support site-level continuous quality improvement</p> <p><input checked="" type="radio"/> B. The host country government:</p> <p style="margin-left: 20px;">Has structures with dedicated focal points or leaders (e.g., committee, focal person, working groups, teams) at the national level, sub-national level and in a majority of sites where HIV/AIDS care and services are offered that are supporting site-level continuous quality improvement</p> <p><input type="checkbox"/> Has a budget line item for the QM program</p> <p style="margin-left: 20px;">Supports a knowledge management platform (e.g., web site) and/or peer learning opportunities available to site QI participants to gain insights from other sites and interventions</p>	<p>9.1 Score: 0.67</p>	<p>Local Protocols with point of Contacts for QI (Kryvyj Rih + Poltava)</p>	<p>Government health system has regulations, structures and people dedicated to quality control and assurance, not continuing quality improvement per se. CME curriculum on CQI was developed and approved at Bohomolets National Medical University and Uzhgorod National University in 2017. By the end of calendar year 2017, methodological recommendations on CQI are expected to be approved.</p>
<p><b>9.2 Quality Management/Quality Improvement (QM/QI) Plan:</b> Is there a current (updated within the last 2 years) QM/QI plan? (The plan may be HIV program-specific or include HIV program-specific elements in a national health sector QM/QI plan.)</p>	<p><input checked="" type="radio"/> A. There is no HIV/AIDS-related QM/QI strategy</p> <p><input type="radio"/> B. There is a QM/QI strategy that includes HIV/AIDS, but it is not utilized</p> <p><input type="radio"/> C. There is a current QM/QI strategy that includes HIV/AIDS program specific elements, and it is partially utilized.</p> <p><input type="radio"/> D. There is a current HIV/AIDS program specific QM/QI strategy, and it is fully utilized.</p>	<p>9.2 Score: 0.00</p>		<p>QI/QM is not an explicit part of the National AIDS Program.</p>
<p><b>9.3 Performance Data Collection and Use for Improvement:</b> Are HIV program performance measurement data systematically collected and analyzed to identify areas of patient care and services that can be improved through national decision making, policy, or priority setting?</p>	<p>A. HIV program performance measurement data are not used to identify areas of patient care and services that can be improved through national decision making, policy, or priority setting.</p> <p><input type="radio"/> A. HIV program performance measurement data are not used to identify areas of patient care and services that can be improved through national decision making, policy, or priority setting.</p> <p><input checked="" type="radio"/> B. HIV program performance measurement data are used to identify areas of patient care and services that can be improved through national decision making, policy, or priority setting (check all that apply):</p> <p style="margin-left: 20px;">The national quality structure has a clinical data collection system from which local performance measurement data on prioritized measures are being collected, aggregated nationally, and analyzed for local and national improvement</p> <p><input type="checkbox"/> There is a system for sharing data at the national, SNU, and local level, with evidence that data is used to identify quality gaps and initiate QI activities</p> <p style="margin-left: 20px;">There is documentation of results of QI activities and demonstration of national HIV program improvement through sharing and implementation of best practices across HIV/AIDS sites at all levels</p>	<p>9.3 Score: 0.67</p>	<p>DQA instrument (NPHC web-site)</p>	<p>There is a robust system of HIV/AIDS data collection, reporting and analysis. NPHC = national quality structure</p> <p>There are some elements of the QI/QI system: Informational Newsletters, National Portal of Strategic Information for HIV/AIDS, National M&amp;E Working Group</p>

<p><b>9.4 Health worker capacity for QM/QI:</b> Does the host country government ensure that the health workforce has capacities to apply modern quality improvement methods to HIV/AIDS care and services?</p>	<p><input type="radio"/> A. There is no training or recognition offered to build health workforce competency in QI.</p> <p><input checked="" type="radio"/> B. There is health workforce competency-building in QI, including:</p> <p><input type="checkbox"/> Pre-service institutions incorporate modern quality improvement methods in curricula</p> <p><input checked="" type="checkbox"/> National in-service training (IST) curricula integrate quality improvement training for members of the health workforce (including managers) who provide or support HIV/AIDS services</p>	<p>9.4 Score: 1.00</p>		<p>CME curriculum on CQI was developed and incorporated into the training program at Bogomolets National Medical University in 2017.</p>
<p><b>9.5 Existence of QI Implementation:</b> Does the host country government QM system use proven systematic approaches for QI?</p>	<p>The national-level QM structure:</p> <p><input type="checkbox"/> Provides oversight to ensure continuous quality improvement in HIV/AIDS care and services</p> <p><input type="checkbox"/> Regularly convenes meetings that include health services consumers</p> <p><input checked="" type="checkbox"/> Routinely reviews national, sub-national and clinical outcome data to identify and prioritize areas for improvement</p> <p>Sub-national QM structures:</p> <p><input checked="" type="checkbox"/> Provide coordination and support to ensure continuous quality improvement in HIV/AIDS care and services</p> <p><input type="checkbox"/> Regularly convene meetings that includes health services consumers</p> <p><input type="checkbox"/> Routinely review national, sub-national and clinical outcome data to identify and prioritize areas for improvement</p> <p>Site-level QM structures:</p> <p><input checked="" type="checkbox"/> Undertake continuous quality improvement in HIV/AIDS care and services to identify and prioritize areas for improvement</p>	<p>9.5 Score: 0.86</p>	<p>Minutes of the meetings, QI Plans, Reports, Weekly management meetings integrated into the operational practice of the sites</p>	<p>National level: Center for Public Health reviews data to identify areas for improvement.</p> <p>Sub-national level: HIV/TB councils, Health Department and AIDS Centers provide coordination and support on quality improvement.</p> <p>Site-level: implement CQI activities, but only within donor-supported TA projects.</p>
<p><b>Quality Management Score:</b></p>		<p><b>3.19</b></p>		

10. Laboratory: The host country ensures adequate funds, policies, and regulations to ensure laboratory capacity (workforce, equipment, reagents, quality) matches the services required for PLHIV.			Data Source	Notes/Comments
<p><b>10.1 Strategic Plan:</b> Does the host country have a national laboratory strategic plan?</p>	<p><input type="radio"/> A. There is no national laboratory strategic plan</p> <p><input checked="" type="radio"/> B. National laboratory strategic plan is under development</p> <p><input type="radio"/> C. National laboratory strategic plan has been developed, but not approved</p> <p><input type="radio"/> D. National laboratory strategic plan has been developed and approved</p> <p><input type="radio"/> E. National laboratory plan has been developed, approved, and costed</p> <p><input type="radio"/> F. National laboratory strategic plan has been developed, approved, costed, and implemented</p>	<p>10.1 Score: 0.33</p>	<p><a href="http://www.kmu.gov.ua/control/uk/cardnpd?docid=249618799">http://www.kmu.gov.ua/control/uk/cardnpd?docid=249618799</a> (in Ukrainian)</p>	<p>Concept on public health system development in Ukraine, approved by the Government of Ukraine on 11/30/2016, envisages development of the national laboratory strategic plan. As of 10/11/2017 the plan is under development within PEPFAR/CDC funded SILAB project</p>
<p><b>10.2 Regulations to Monitor Quality of Laboratories and Point of Care Testing (POCT) Sites:</b> To what extent does the host country have regulations in place to monitor the quality of its laboratories and POCT sites? (if exact or approximate percentage known, please note in Comments column)</p>	<p><input type="radio"/> A. Regulations do not exist to monitor minimum quality of laboratories in the country.</p> <p><input type="radio"/> B. Regulations exist, but are not implemented (0% of laboratories and POCT sites regulated).</p> <p><input type="radio"/> C. Regulations exist, but are minimally implemented (approx. 1-9% of laboratories and POCT sites regulated).</p> <p><input checked="" type="radio"/> D. Regulations exist, but are partially implemented (approx. 10-49% of laboratories and POCT sites regulated).</p> <p><input type="radio"/> E. Regulations exist and are mostly implemented (approx. 50-89% of laboratories and POCT sites regulated).</p> <p><input type="radio"/> F. Regulations exist and are fully or almost fully implemented (approx. 90%+ of laboratories and POCT sites regulated).</p>	<p>10.2 Score: 0.83</p>	<p><a href="http://zakon2.rada.gov.ua/laws/show/z0112-15">http://zakon2.rada.gov.ua/laws/show/z0112-15</a> (in Ukrainian)</p> <p><a href="http://zakon2.rada.gov.ua/laws/show/z1404-05">http://zakon2.rada.gov.ua/laws/show/z1404-05</a> (in Ukrainian)</p> <p><a href="http://zakon3.rada.gov.ua/laws/show/z0319-11">http://zakon3.rada.gov.ua/laws/show/z0319-11</a> (in Ukrainian)</p> <p><a href="http://mtd.dec.gov.ua/index.php/uk/temy-v-rozrobtsi/elektronni-konsultatsii-z-hromadskistiu">http://mtd.dec.gov.ua/index.php/uk/temy-v-rozrobtsi/elektronni-konsultatsii-z-hromadskistiu</a> (in Ukrainian)</p>	<p>Existing policies regulate laboratories (MoH Ordinance #4), and to the less extent they allow to monitor quality of POCT (2 other MoH ordinances - 415, 1141). With decentralization of services and expansion of POCT new regulation package is under development (includes new ordinance, and comprehensive consolidated HIV guidelines).</p>
<p><b>10.3 Capacity of Laboratory Workforce:</b> Does the host country have an adequate number of qualified laboratory personnel (human resources [HR]) in the public sector, to sustain key functions to meet the needs of PLHIV for diagnosis, monitoring treatment and viral load suppression?</p>	<p><input type="radio"/> A. There are not adequate qualified laboratory personnel to achieve sustained epidemic control</p> <p><input checked="" type="radio"/> B. There are adequate qualified laboratory personnel to perform the following key functions:</p> <p><input checked="" type="checkbox"/> HIV diagnosis by rapid testing and point-of-care testing</p> <p><input checked="" type="checkbox"/> Routine laboratory testing, including chemistry, hematology, microbiology, serology, blood banking, and malaria</p> <p><input type="checkbox"/> Complex laboratory testing, including HIV viral load, CD4 testing, and molecular assays</p> <p><input type="checkbox"/> TB diagnosis</p>	<p>10.3 Score: 0.83</p>	<p><a href="http://phc.org.ua/uploads/documents/c21991/8a07ad35dc72489d06682eec55d0d1d8.pdf">http://phc.org.ua/uploads/documents/c21991/8a07ad35dc72489d06682eec55d0d1d8.pdf</a> (page 87-91)</p>	

<p><b>10.4 Viral Load Infrastructure:</b> Does the host country have sufficient infrastructure to test for viral load to reach sustained epidemic control?</p>	<p><input checked="" type="radio"/> A. There is not sufficient infrastructure to test for viral load.</p> <p><input type="radio"/> B. There is sufficient infrastructure to test for viral load, including:</p> <p><input type="checkbox"/> Sufficient HIV viral load instruments</p> <p><input type="checkbox"/> All HIV viral load laboratories have an instrument maintenance program</p> <p><input type="checkbox"/> Sufficient supply chain system is in place to prevent stock outs</p> <p><input type="checkbox"/> Adequate specimen transport system and timely return of results</p>	<p>10.4 Score: 0.00</p>	<p><a href="http://phc.org.ua/uploads/documents/c21991/8a07ad35dc72489d06682eec55d0d1d8.pdf">http://phc.org.ua/uploads/documents/c21991/8a07ad35dc72489d06682eec55d0d1d8.pdf</a> (page 85, 89-91)</p>	<p>Existing 17 labs do not have sufficient capacity to cover 100% need in viral load testing ( in context of ART expansion)</p> <p>CPH developed a plan and negotiated with suppliers of VL equipment to install additional 8 VL stations which is pending.</p>
<p><b>10.5 Domestic Funds for Laboratories:</b> To what extent are laboratory services financed by domestic public or private resources (i.e. excluding external donor funding)?</p> <p>(if exact or approximate percentage known, please note in Comments column)</p>	<p><input type="radio"/> A. No (0%) laboratory services are financed by domestic resources.</p> <p><input type="radio"/> B. Minimal (approx. 1-9%) laboratory services are financed by domestic resources.</p> <p><input type="radio"/> C. Some (approx. 10-49%) laboratory services are financed by domestic resources.</p> <p><input checked="" type="radio"/> D. Most (approx. 50-89%) laboratory services are financed by domestic resources.</p> <p><input type="radio"/> E. All or almost all (approx. 90%+) laboratory services are financed by domestic resources.</p>	<p>10.5 Score: 2.50</p>	<p>No reference available; expert opinion expressed during phone call with HIV reference lab on 10/11/2017</p>	<p>PEPFAR and GFATM cover part of VL testing for KP as well as CD4 and VL for ART monitoring. Major funding comes from the national AIDS program (central and local budgets).</p> <p>CPH experiences some difficulties with coordination of lab supplies procurement due to changes in regulations and procurement procedures in Ukraine (i.e. delays, narrowed list of IVDs approved for in-country use)</p> <p>100% for Ukraine</p>
<b>Laboratory Score:</b>		<b>4.50</b>		

THIS CONCLUDES THE SET OF QUESTIONS ON DOMAIN B

### Domain C. Strategic Investments, Efficiency, and Sustainable Financing

What Success Looks Like: Host country government is aware of the financial resources required to effectively and efficiently meet its national HIV/AIDS prevention, care and treatment targets. HCG actively seeks, solicits and or generates the necessary financial resources, ensures sufficient resource commitments, and uses data to strategically allocate funding and maximize investments.

Fiscal Context for Health and HIV/AIDS		Data Source	Notes/Comments
This section will not be assigned a score, but will provide additional contextual information to complement the questions in Domain C.			
1. What percentage of general government expenditures goes to health?	11%	World Bank database (2014) - Health expenditure, public (% of government expenditure) <a href="https://data.worldbank.org/indicator/SH.XPD.PUBL.GX.ZS?view=chart">https://data.worldbank.org/indicator/SH.XPD.PUBL.GX.ZS?view=chart</a>	According to the State Budget Allocation for 2017 - 9%
2. What is the per capita health expenditure all sources?	203 current \$ 584 international \$	World Bank database (2014) - Health expenditure per capita (current US\$) World Bank database (2014) - Health expenditure per capita, PPP (constant 2011 international \$)	Держкомстат
3. What is the total health care expenditure all sources as a percent of GDP?	7.10%	World Bank database (2014) - Health expenditure, total (% of GDP) <a href="https://data.worldbank.org/indicator/SH.XPD.TOTL.ZS">https://data.worldbank.org/indicator/SH.XPD.TOTL.ZS</a>	Держкомстат
4. What percent of total health expenditures is financed by external resources?	0.60%	World Bank database (2014) - External resources for health (% of total expenditure on health) <a href="https://data.worldbank.org/indicator/SH.XPD.EXTR.ZS">https://data.worldbank.org/indicator/SH.XPD.EXTR.ZS</a>	Держкомстат
5. What percent of total health expenditures is financed by out of pocket spending net of household contributions to medical schemes/pre-payment schemes?	46.20%	World Bank database (2014) - Out-of-pocket health expenditure (% of total expenditure on health) <a href="https://data.worldbank.org/indicator/SH.XPD.OOPC.TO.ZS">https://data.worldbank.org/indicator/SH.XPD.OOPC.TO.ZS</a>	

11. Domestic Resource Mobilization: The partner country budgets for its HIV/AIDS response and makes adequate resource commitments and expenditures to achieve national HIV/AIDS goals for epidemic control in line with its financial ability.	Data Source	Notes/Comments
<p>11.1 Long-term Financing Strategy for HIV/AIDS: Has the host country government developed a long-term financing strategy for HIV/AIDS?</p> <p>Check all that apply:</p> <p>A. Yes, there is a universal, comprehensive financing scheme that integrates social health insurance, public subsidies, and national budget provisions for public health aspects (e.g., disease surveillance). It includes the following (check all that apply):</p> <p><input checked="" type="checkbox"/> ARVs are covered</p> <p><input checked="" type="checkbox"/> Non-ARV care and treatment is covered</p> <p><input checked="" type="checkbox"/> Prevention services are covered</p> <p>B. Yes, there is an affordable health insurance scheme available (check one of the following).</p> <p><input type="checkbox"/> It covers 25% or less of the population.</p> <p><input type="checkbox"/> It covers 26 to 50% of the population.</p> <p><input type="checkbox"/> It covers 51 to 75% of the population.</p> <p><input type="checkbox"/> It covers more than 75% of the population.</p> <p>C. The affordable health insurance scheme in (B.) includes the following (check all that apply):</p> <p><input type="checkbox"/> ARVs are covered.</p> <p><input type="checkbox"/> Non-ARV care and treatment services are covered.</p> <p><input type="checkbox"/> Prevention services are covered.</p> <p><input type="checkbox"/> It includes public subsidies for the affordability of care.</p>	<p>11.1 Score: 0.32</p>	<p><a href="http://zakon3.rada.gov.ua/laws/show/248-2017-%D1%80?lang=en">http://zakon3.rada.gov.ua/laws/show/248-2017-%D1%80?lang=en</a></p>

<p><b>11.2 Domestic Budget:</b> To what extent does the national budget explicitly account for the national HIV/AIDS response?</p>	<p><input type="radio"/> A. There is no explicit funding for HIV/AIDS in the national budget.</p> <p><input checked="" type="radio"/> B. There is explicit HIV/AIDS funding within the national budget.</p> <p><input checked="" type="checkbox"/> The HIV/AIDS budget is program-based across ministries</p> <p><input checked="" type="checkbox"/> The budget includes or references indicators of progress toward national HIV/AIDS strategy goals</p> <p><input checked="" type="checkbox"/> The budget includes specific HIV/AIDS service delivery targets</p> <p><input checked="" type="checkbox"/> National budget reflects all sources of funding for HIV, including from external donors</p>	<p>11.2 Score: 0.95</p>	<p>NAP 2014-2018 site of RADA. <a href="http://zakon1.rada.gov.ua/laws/show/1708-18">http://zakon1.rada.gov.ua/laws/show/1708-18</a>. The funds of the NAP depend on the annual budget allocations. Budget Law.</p>	
<p><b>11.3 Annual Goals/Targets:</b> To what extent does the national budget contain HIV/AIDS goals/targets?</p>	<p><input type="radio"/> A. There are no HIV/AIDS goals/targets articulated in the national budget</p> <p><input checked="" type="radio"/> B. There are HIV/AIDS goals/targets articulated in the national budget.</p> <p><input checked="" type="checkbox"/> The goals/targets are measurable.</p> <p><input checked="" type="checkbox"/> Budget items/programs are linked to goals/targets.</p> <p><input checked="" type="checkbox"/> The goals/targets are routinely monitored during budget execution.</p> <p><input type="checkbox"/> The goals/targets are routinely monitored during the development of the budget.</p>	<p>11.3 Score: 0.83</p>	<p>Report on NAP implementation 2014: By indicators <a href="http://www.moz.gov.ua/ua/portal/pgrep_AIDS_2014_01.html">www.moz.gov.ua/ua/portal/pgrep_AIDS_2014_01.html</a> By funds: <a href="http://www.moz.gov.ua/ua/portal/pgrep_AIDS_2014_03.html">www.moz.gov.ua/ua/portal/pgrep_AIDS_2014_03.html</a> BY activities: <a href="http://www.moz.gov.ua/ua/portal/pgrep_AIDS_2014_02.html">www.moz.gov.ua/ua/portal/pgrep_AIDS_2014_02.html</a> GARPR</p>	
<p><b>11.4 HIV/AIDS Budget Execution:</b> For the previous three years, what was the average execution rate for budgeted domestic HIV/AIDS resources (i.e. excluding any donor funds) at both the national and subnational level?  (If subnational data does not exist or is not available, answer the question for the national level. Note level covered in the comments column)</p>	<p><input type="radio"/> A. There is no HIV/AIDS budget, or information is not available.</p> <p><input type="radio"/> B. 0-49% of budget executed</p> <p><input type="radio"/> C. 50-69% of budget executed</p> <p><input type="radio"/> D. 70-89% of budget executed</p> <p><input checked="" type="radio"/> E. 90% or greater of budget executed</p>	<p>11.4 Score: 0.95</p>	<p>Report on NAP 2014 implementation (finance) <a href="http://www.moz.gov.ua/ua/portal/pgrep_AIDS_2014_03.html">www.moz.gov.ua/ua/portal/pgrep_AIDS_2014_03.html</a></p>	<p><a href="http://www.moz.gov.ua/docfiles/bp_2016_2301400.pdf">http://www.moz.gov.ua/docfiles/bp_2016_2301400.pdf</a> There is practice to have a strategic planning for comprehensive needs of NAP, but allocated state annual budget is not capable to address all these needs. These Financial Gaps are addressing with Interantional Donors support. The principle of mid-term planning is not currently functional in Ukraine.</p>

<p><b>11.5 Donor Spending:</b> Does the Ministry of Health or Ministry of Finance routinely, and at least on an annual basis, collect all donor spending in the health sector or for HIV/AIDS-specific services?</p>	<p>A. Neither the Ministry of Health nor the Ministry of Finance routinely collects all donor spending in the health sector or for HIV/AIDS-specific services.</p> <p><input checked="" type="radio"/> B. The Ministry of Health or Ministry of Finance routinely collects all donor spending for only HIV/AIDS-specific services.</p> <p>C. The Ministry of Health or Ministry of Finance routinely collects all donor spending all the entire health sector, including HIV/AIDS-specific services.</p>	<p>11.5 Score: 0.67</p>	<p>NASA reporting</p>	
<p>11.6 Domestic Spending: What percent of the annual national HIV response is financed with domestic public and domestic private sector HIV funding? (Domestic funding excludes out-of-pocket, Global Fund grants, and other donor resources)?</p> <p>(if exact or approximate percentage known, please note in Comments column)</p>	<p><input type="radio"/> A. None (0%) is financed with domestic funding.</p> <p><input type="radio"/> B. Very little (approx. 1-9%) is financed with domestic funding.</p> <p><input checked="" type="radio"/> C. Some (approx. 10-49%) is financed with domestic funding.</p> <p><input type="radio"/> D. Most (approx. 50-89%) is financed with domestic funding.</p> <p><input type="radio"/> E. All or almost all (approx. 90%+) is financed with domestic funding.</p>	<p>11.6 Score: 1.67</p>	<p>Financial gap analysis GFATM 2018-2020 application - for planned resources. <p><b>11.7 Health Budget Execution:</b> What was the country's execution rate of its budget for health in the most recent year's budget?</p>	<p><input type="radio"/> A. There is no budget for health or no money was allocated.</p> <p><input type="radio"/> B. 0-49% of budget executed.</p> <p><input type="radio"/> C. 50-69% of budget executed.</p> <p><input type="radio"/> D. 70-89% of budget executed.</p> <p><input checked="" type="radio"/> E. 90% or greater of budget executed.</p>	<p>11.7 Score: 0.95</p>	<p><a href="http://www.moz.gov.ua/docfiles/bp_2016_2301400.pdf">http://www.moz.gov.ua/docfiles/bp_2016_2301400.pdf</a>  <a href="http://www.moz.gov.ua/docfiles/bpz_2016_2301400.pdf">http://www.moz.gov.ua/docfiles/bpz_2016_2301400.pdf</a></p>	
<p><b>11.8 Data-Driven Reprogramming:</b> Do host country government policies/systems allow for reprogramming domestic investments based on new or updated program data during the government funding cycle?</p>	<p><input type="radio"/> A. There is no system for funding cycle reprogramming.</p> <p><input type="radio"/> B. There is a policy/system that allows for funding cycle reprogramming, but is seldom used.</p> <p><input checked="" type="radio"/> C. There is a policy/system that allows for funding cycle reprogramming and reprogramming is done as per the policy, but not based on data.</p> <p><input type="radio"/> D. There is a policy/system that allows for funding cycle reprogramming and reprogramming is done as per the policy, and is based on data.</p>	<p>11.8 Score: 0.63</p>		
<p><b>Domestic Resource Mobilization Score:</b></p>		<p><b>6.98</b></p>		

12. Technical and Allocative Efficiencies: The host country analyzes and uses relevant HIV/AIDS epidemiological, health, health workforce, and economic data to inform HIV/AIDS investment decisions. For maximizing impact, data are used to choose which high impact program services and interventions are to be implemented, where resources should be allocated, and what populations demonstrate the highest need and should be targeted (i.e. the right thing at the right place and at the right time). Unit costs are tracked and steps are taken to improve HIV/AIDS outcomes within the available resource envelope (or achieves comparable outcomes with fewer resources).			
		Data Source	Notes/Comments
<p>12.1 Resource Allocation Process: Does the partner country government utilize a recognized data-driven model to inform the allocation of domestic (i.e. non-donor) public HIV resources?</p> <p>If yes, please note in the comments section when the model was last used and for what purpose (e.g., for Global Fund concept note development)</p> <p>(note: full score achieved by selecting one checkbox)</p>	<p>A. The host country government does not use one of the mechanisms listed below to inform the allocation of their resources.</p> <p>B. The host country government does use the following mechanisms to inform the allocation of their resources (check all that apply):</p> <p><input checked="" type="checkbox"/> Optima</p> <p><input checked="" type="checkbox"/> Spectrum (Including EPP and Goals)</p> <p><input checked="" type="checkbox"/> AIDS Epidemic Model (AEM)</p> <p><input type="checkbox"/> Modes of Transmission (MOT) Model</p> <p><input type="checkbox"/> Other recognized process or model (specify in notes column)</p>	<p>12.1 Score: 2.00</p>	<p>Investment Case (Allocative Efficiency study based on Optima WB,UNAIDS 2014) - policy brief is available. Spectrum data analysis <a href="https://phc.org.ua/uploads/documents/c21991/8a07ad35dc72489d06682eec55d0d1d8.pdf">https://phc.org.ua/uploads/documents/c21991/8a07ad35dc72489d06682eec55d0d1d8.pdf</a></p> <p>Publication by PHC; GARPR and AIDSinfo site for Spectrum data in indicators.</p>
<p>12.2 Geographic Allocation: Of central government HIV-specific resources (excluding any donor funds) allocated to geographic subunits in the most recent year available, what percentage is being allocated in the highest burden geographic areas (i.e. districts that cumulatively account for 80% of PLHIV)?</p> <p>(if exact or approximate percentage known, please note in Comments column)</p>	<p><input type="radio"/> A. Information not available.</p> <p><input type="radio"/> B. No resources (0%) are targeting the highest burden geographic areas.</p> <p><input type="radio"/> C. Minimal resources (approx. 1-9%) are targeting the highest burden geographic areas.</p> <p><input checked="" type="radio"/> D. Some resources (approx. 10-49%) are targeting the highest burden geographic areas.</p> <p><input type="radio"/> E. Most resources (approx. 50-89%) are targeting the highest burden geographic areas.</p> <p><input type="radio"/> F. All or almost all resources (approx. 90%+) are targeting the highest burden geographic areas.</p>	<p>12.2 Score: 1.00</p>	<p>PHC site ART distribution in Oblasts <a href="http://phc.org.ua/pages/diseases/hiv_aids/treatment-and-prevention/art">http://phc.org.ua/pages/diseases/hiv_aids/treatment-and-prevention/art</a>; Information bulletins <a href="http://phc.org.ua/pages/diseases/hiv_aids/monitoring/information-bulletins">http://phc.org.ua/pages/diseases/hiv_aids/monitoring/information-bulletins</a>;</p>

<p>12.3 Unit Costs: Does the host country government use recent expenditure data or cost analysis (i.e. data from within the last three years) to estimate unit costs of HIV/AIDS services for budgeting or planning purposes?</p> <p>(note: full score can be achieved without checking all disaggregate boxes).</p>	<p><input checked="" type="radio"/> a. The host country government does not have/use recent expenditure data or cost analysis to estimate unit costs</p> <p><input type="radio"/> b. The host country government uses recent expenditure data or cost analysis to estimate unit costs for (check all that apply):</p> <p><input type="checkbox"/> HIV Testing</p> <p><input type="checkbox"/> Laboratory services</p> <p><input type="checkbox"/> ART</p> <p><input type="checkbox"/> PMTCT</p> <p><input type="checkbox"/> VMMC</p> <p><input type="checkbox"/> OVC Service Package</p> <p><input type="checkbox"/> Key population Interventions</p>	<p>12.3 Score: 0.00</p>	<p>The NAP 2014-2018 budget formulation/costing documents. <p>12.5 ARV Benchmark prices: How do the costs of ARVs (most common first line regimen) purchased in the previous year by the partner government using domestic resources compare to international benchmark prices for that year?</p> <p>(Use the "factory cost" of purchased commodities, excluding transport costs, distribution costs, etc.)</p>	<p><input type="radio"/> A. Partner government did not pay for any ARVs using domestic resources in the previous year.</p> <p><input checked="" type="radio"/> B. Average price paid for ARVs by the partner government in the previous year was more than 50% greater than the international benchmark price for that regimen.</p> <p><input type="radio"/> C. Average price paid for ARVs by the partner government in the previous year was 10-50% greater than the international benchmark price for that regimen.</p> <p><input type="radio"/> D. Average price paid for ARVs by the partner government in the previous year was 1-10% greater than the international benchmark price for that regimen.</p> <p><input type="radio"/> E. Average price paid for ARVs by the partner government in the previous year was below or equal to the international benchmark price for that regimen.</p>	<p>12.5 Score: 0.50</p>	<p><a href="http://apps.who.int/hiv/amds/price/hdd/">http://apps.who.int/hiv/amds/price/hdd/</a></p>	<p>The cost of 1 line ART (UNICEF procurement 2016) TDF/FTC+EFV 5,10+3,15=8.25 USD per month.  Year cost is 8.25*12=99 USD.  108.35 (регион, 2015) -  164 (Украина 2015)  216 (Украина 2016)  78 (Украина 2017)</p>
<p><b>Technical and Allocative Efficiencies Score:</b></p>		<p><b>4.39</b></p>		

THIS CONCLUDES THE SET OF QUESTIONS ON DOMAIN C

## Domain D: Strategic Information

**What Success Looks Like:** Using local and national systems, the host country government collects, analyzes and makes available timely, comprehensive, and quality HIV/AIDS data (including epidemiological, economic/financial, and performance data) that can be used to inform policy, program and funding decisions.

**13. Epidemiological and Health data:** Host Country Government routinely collects, analyzes and makes available data on the HIV/AIDS epidemic and its effects on health outcomes. HIV/AIDS epidemiological and health data include size estimates of key populations, PLHIV, HIV incidence, HIV prevalence, viral load and AIDS-related mortality rates.

			Data Source	Notes/Comments
<p><b>13.1 Who Leads General Population Surveys &amp; Surveillance:</b> To what extent does the host country government lead and manage planning and implementation of the HIV/AIDS portfolio of general population epidemiological surveys and/or surveillance activities (population-based household surveys, case reporting/clinical surveillance, drug resistance surveillance, etc.)?</p>	<p><input type="radio"/> A. No HIV/AIDS general population surveys or surveillance activities have been conducted within the past 5 years</p> <p><input type="radio"/> B. Surveys &amp; surveillance activities are primarily planned and implemented by external agencies, organizations or institutions</p> <p><input type="radio"/> C. Surveys &amp; surveillance activities are planned and implemented by the host country government/other domestic institution, with substantial technical assistance from external agencies</p> <p><input checked="" type="radio"/> D. Surveys &amp; surveillance activities are planned and implemented by the host country government/other domestic institution, with some technical assistance from external agencies</p> <p><input type="radio"/> E.
